QPRS (Quality Point Rating System) – QPRS is a mathematical formula rating system for evaluating the performances of American football teams which takes into account a team’s Schedule Strength, Won-Loss Record, and its Points Fielded/Points Allowed.

NOTE: In comparing teams from different eras, I do not for one moment pretend that a team from the early years could beat its modern-day counterpart. Football tactics in college have greatly evolved while players have become more powerful, faster, and more professional than their forebears. Rather, I compare how one team did within its season against how well a later team performed against its opponents in its year. This is a comparison about the extent to which a football team was able to dominate the competition within its particular year.
